The grass is greener.

WHY IS THE GRASS GREENER?

OVER 150 YEARS IN AG

In 1864, the founder of what is now called Deutz Ag, Nicolaus Otto invented the four-stroke internal combustion engine and with Eugen Langen started the first engine factory in the world.

ENGINES + TRANSMISSIONS

A key feature contributing to Deutz-Fahr's fuel efficiency is its innovative transmission systems offering smooth and precise control of power delivery.

THE RANGE

Whether you're after a specialist tractor for the vineyard, a compact model for your lifestyle property, or a powerhouse for the farm, Deutz-Fahr has a tractor to suit the job.

OVER 25 YEARS IN AUSTRALIA

PFG Australia has proudly imported and distributed Deutz-Fahr tractors for over 25 years. Backed by a strong nationwide dealer network, you can rely on our experience to support you every step of your Deutz-Fahr journey.

GERMAN ENGINEERING AT ITS BEST

Engineered in Germany, Deutz-Fahr tractors bring precision, power, and reliability to the field — so you know they won't let you down.

COMFORT THAT WORKS AS LONG AS YOU DO

Quality is the key driver for Deutz-Fahr's lineup of tractors: from the high precision, durable finish, the ergonomically-designed controls layout, to the exceptional overall comfort and visibility of the operator's station.

TECHNOLOGY - PUSH THE BOUNDARIES

Our tractors give the option to choose precision farming technologies, fuel-efficient engines, and integrated GPS systems. Our cutting-edge hydraulic systems ensure superior performance and control, while ergonomic designs enhance operator comfort.

OUR TECHNICIANS ARE SECOND TO NONE

Our commitment to quality service and reliable parts delivery has been the foundation of our business, supporting Australian farmers for over 25 years. Providing the best service in the industry remains our top priority and is central to the continued success of our organisation.

A MESSAGE FROM DEUTZ-FAHR'S GENERAL MANAGER

When the time comes to upgrade or replace an older tractor, there are many things to consider to make sure the decision on a replacement is the right one. For most farmers and growers, a tractor represents a significant investment in capital, so it's not a decision to be taken lightly.

With so many different brands and models with a wide range of features and specifications available on the market, things can get confusing fast! Where is the best place to start?

At Deutz-Fahr, although our tractors are packed with the most advanced features and technology, we also like to keep things simple. For us, it's about the total package and providing customers with the absolute best value for money and return on investment. This means not only the most competitive deal on the right machine for your farm or orchard, but also lower day-to-day operating costs that are proven to outperform other leading brands.

Deutz-Fahr is backed by PFG Australia, the nation's largest independent distributor of agricultural equipment, with a comprehensive network of highly experienced dealers you can trust to keep your tractor performing at its best. We've been in the business for over 25 years, and from day one our focus has always been about providing the best customer experience.

Another critical part of our overall value proposition is resale value. Deutz-Fahr tractors are well known for their slower depreciation rates and for maintaining strong residual values on the second-hand market. This means your Deutz-Fahr tractor will be worth more when it comes time to trade it in.

This catalogue features our latest offers across the entire range and we've got some fantastic deals with machines in stock and ready for delivery now. With over 10,000 tractors sold in Australia, now has never been a better time to "go green"!

Tim Fanning
General Manager
Deutz-Fahr Australia

AGROLUX SERIES

62HP

THE COMPACT VERSATILE TRACTOR IDEAL FOR SMALL TO MEDIUM FARMS

3 CYLINDER SDF 1000 SERIES TIER 3 ENGINE FOR RELIABILITY

FRONT AXLE BRAKES WITH 4WD BRAKING FOR IMPROVED SAFETY, TRACTION AND REDUCED BRAKE WEAR

3-RANGE 15F/15R SYNCHROMESH TRANSMISSION WITH A HEAVY-DUTY 11" DUAL DRY CLUTCH FOR SMOOTH OPERATION

42 L/MIN HYDRAULIC PUMP WITH A DEDICATED STEERING PUMP FOR CONSISTENT FLOW TO THE STEERING ORBITAL

The Deutz-Fahr Agrolux 310 ROPS is a versatile, reliable tractor designed for a range of agricultural tasks. Powered by a robust engine, this model delivers impressive performance with its 40 km/h top speed, making it ideal for both fieldwork and transport.

Featuring a Synchro Shuttle transmission, the Agrolux 310 ensures smooth, efficient gear shifting, while the ROPS (Roll Over Protective Structure) offers enhanced operator safety in tough working conditions.

Compact yet powerful, this tractor is perfect for farmers looking for a durable, no-nonsense machine that gets the job done with ease and efficiency.

THE LEGEND RETURNS: OVER 800 UNITS SOLD IN AUSTRALIA

[60x60 3 Speed Powershift Transmission]

TIER 4 FARMOTION COMMON RAIL TURBO INTERCOOLED DIESEL ENGINE

ON DEMAND 90L/MIN HYDRAULIC SYSTEM WITH 3 SETS OF REMOTES AND FLOW CONTROL

WET CLUTCH WITH SENSE CLUTCH SHUTTLE MODULATION CONTROL ALLOWING SMOOTH DIRECTIONAL CHANGES

SPACIOUS ERGONOMIC AIR-CONDITIONED CABIN WITH HI-VIS GLASS ROOF HATCH - IDEAL FOR LOADER WORK

The Deutz-Fahr 5125G HD is a robust mid-power utility tractor within the 5 Series, first introduced in 2017 and built to handle demanding day-to-day tasks with ease. Powered by a 4-cylinder, 3.9L FARMotion diesel engine, it delivers 126hp with strong torque of up to 500 Nm at around 1600 rpm, providing reliable performance when it counts.

A 60x60 3-speed Powershift transmission ensures smooth, responsive operation across both fieldwork and loader duties, while the mechanical front axle and wet disc brakes deliver dependable traction and control. Complementing this is an open-centre hydraulic system with 90 L/min flow, offering consistent performance for a wide range of implements.

PARTS & SERVICE

QUALITY NATIONWIDE PARTS AND SERVICE

With a Deutz-Fahr tractor you are not only investing in over 150 years of manufacturing excellence, you are also getting the support of a highly professional global parts and service organisation.

At the local level, PFG Australia plays a key role in the Deutz-Fahr service promise, and we have a proud history of providing strong after-sales support. We're locals in communities throughout Australia, and we're 100% family owned.

Our network of dealers are backed up with extensive training, both online and in-person with factory specialists. We can ensure that your tractor is always ready for operation, day after day.

This service commitment is not just confined to a team of very capable people and some smart technology. We also have an extensive range of parts held at our local warehouses and an efficient delivery service Australia-wide.

RELIABILITY

GERMAN ENGINEERING WITHOUT COMPROMISE

Deutz-Fahr tractors are built in Lauingen, the most advanced tractor manufacturing facility in Europe. This is where precision engineering, automated production, and decades of technical know-how come together. Every tractor is crafted to deliver maximum reliability, strength, and performance in real-world conditions.

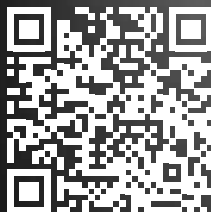

From high-horsepower models to specialist configurations, each machine is engineered to handle the demanding mix of soils, climates and applications farmers face today. Premium European components, rigorous testing, and laser-cut accuracy form the backbone of every build.

These tractors are designed to work harder for longer. With efficient powertrains, intuitive technology, and purpose-built systems, they give operators confidence day after day, acre after acre. Deutz-Fahr backs that with fast, expert support and a strong global parts network, ensuring downtime is kept to a minimum and productivity stays high.
